Attention: Mr. R. M. Monti

Gentlemen:

I trust that the Cafco spray-fireproofing of the floor truss test you witnessed on September 13th in Stanhope, N.J., along with other members of your office and Mr. Joseph Soloman of Emery Roth & Sons, met with your requirements.

As I discussed with Mr. Tozzoli and yourself several months ago, there are both time and money advantages in spray-fireproofing not only the exterior columns of the Towers, but also the interior of trusses, columns, beams, etc..

We have been able to do a certain amount of planning based on the preliminary drawings we have seen. However, Mr. Soloman has indicated that the final drawings will soon be completed and at that time we will be able to give you job scheduling details and pricing information, which I feel certain will be advantageous.

PLAINTIFF'S EXHIBIT
PX-473

Very truly yours,

Louis Di Bono
